6/21/69 12 :25 Just had a phone call from a man identifying himself as Orlando Pereira of the Cuban mission in New York. He said he had a message and material for me from Havana in response to requests I had made. I explained it was difficult for me to go to NY for financial reasons and suggested I could have it gotten by John Friedman or my literary agent. He seemed unwilling so I said that when I could I'd make arrangements and would be in touch. His phone is UN 1-5250-1, 6 E 67
